EDUCATION

MODIBO ADAMA UNIVERSITY YOLA

2016 - 2023

B.TECH

Computer Science | Second class upper

SUMMARY

Experienced Software Engineer with a strong background in frontend development, specializing in React and React Native. Skilled in designing and implementing UI components, managing application state, and ensuring efficient frontend-to-backend communication. Proven ability to collaborate with diverse teams to deliver high-quality software solutions on time and within budget. Proficient in mentoring junior developers, conducting code reviews, and staying updated with modern technologies. Dedicated to creating user-friendly applications and driving innovation through continuous learning and adaptation.

WORK EXPERIENCE

Software Engineer, Flexisaf

Jan 2020 - Present (4y 3m)

- Supervision of frontend developers on my team.
- Researching for modern and effective technologies that drive value and increase productivity.
- Creating reusable internal libraries and component APIs for my team.
- Designed and implemented frontend-to-backend communication using RESTful APIs, allowing for efficient data retrieval, manipulation, and synchronization between the user interface and server.
- Collaborated with diverse teams to ensure on-time software delivery within budgetary and timeline constraints.
- Collaborated with backend developers and QA teams to troubleshoot and resolve API-related issues, fostering a collaborative approach to delivering reliable and high-performance software solutions.
- Expertly integrated Redux for efficient state management within React applications, guaranteeing seamless data flow and synchronization across complex projects.
- Data Synchronization (RTK Query): Skilled in utilizing RTK Query, a Redux Toolkit library, for efficient and scalable data synchronization within React applications.
- App Development & Maintenance: Possess strong experience in developing and maintaining robust and user-friendly applications.

- React Native Development (Lellal): Developed cross-platform mobile applications for Lellal using React Native.

React Developer, Flexisaf

2022

- FlexiSAF Edusoft Limited is a leading EdTech Company providing end-to-end education solutions for schools and institutions across Nigeria and Africa.
 - Implementing UI components in React, collaborating with designers, and integrating frontend with backend APIs.
 - Managing application state efficiently using Redux or context API, ensuring data consistency across components.
 - Promoting user-centered design principles, providing feedback on UI/UX designs, and improving usability and accessibility.
 - Guiding junior developers, overseeing code reviews, defining project requirements, and troubleshooting technical issues.

React and React Native Developer, Lellall (Freelance)

2023

- Lellall, an all-in-one On-demand store, aimed at disrupting the way people shop by revolutionizing the online retail industry and setting new standards in customer satisfaction, product diversity, and technological innovation. Our dream is to redefine convenience, accessibility, and the overall shopping experience.
 - Build user interfaces (UIs)
 - Ensure responsiveness across devices
 - Optimize for fast loading and performance
 - Collaborate with designers and back-end devs
- ***React Native Developer***
 - Build mobile apps (iOS & Android) with React Native.
 - Craft user-friendly UIs for both platforms.
 - Integrate seamlessly with backend APIs.
 - Optimize app performance for a smooth experience.
 - Maintain clean, testable code for future updates.

CERTIFICATES

MOBILE WEB DEVELOPMENT (08/2020 -12/2021)

GOOGLE AFRICA DEVELOPER TRAINING PROGRAM

PHP and MYSQL (04/2020 -05/2020)

UDEMY

SKILLS & INTERESTS

Programming languages: , MongoDB, Javascript , Postgres ,Typescript, My sql, Php

Technologies React, ReactNative, Node.js, CSS, HTML, Git , Docker, Express.js, programming, Linux/Unix command-line tools , Vite, Webpack
